Subject: Regarding certification of Students records for the session 2023-24

R/Sir,

With reference to the letter no HPSES-SSA-MIS-02/2023-10427-11119 dt 05th March 2024 office of the State Project Director SS DPEP Bhawan Lal Pani Shimla on the subject cited above.

The Ministry of Education, New Delhi has opened the facility to certify student data at school level and also observed that student data for the year 2023-24 is reported less to comparison the 2022-23 UDISE Data. Students send to the Dropbox are stilling pending and not imported by the concerned schools where they should be; instead of that they have enrolled new students with S02 due to which PEN's yet not created by MoE.

So, you are hereby requested to update the status of student in dropbox at school level after that certify the school with actual enrollment. The real picture of the school must be reflected as all the educational indicators are dependent on accurate/ consistent enrolment data. After certification, schools have to make progression (promotion) activity of students for the session 2023-24, which will be opened very soon.
